SUMMARY

Full Stack Developer proficient in JavaScript, TypeScript, Python, and PHP, with hands-on experience in Next.js, Tailwind CSS, and Laravel. Skilled in database management using MySQL and Neon DB, and experienced with version control via Git/GitHub and deployment on Vercel. Adept at working in collaborative team environments to develop efficient and scalable web applications.

WORK EXPERIENCE

Full Stack Developer, Innovative Widget — Oct 2024 - Present

- Design, developed and deployed user-friendly full-stack web applications.
- Developed client-focused, user-friendly interfaces.

PROJECTS

BOOKMYSLOT:

- Developed and maintained a salon booking platform using Laravel, PHP, MySQL, and Bootstrap.
- Designed and managed models, controllers, and real-time data handling with JavaScript and Ajax, enhancing user experience across service selection, professional assignment, and calendar functionalities.

SQUARE ONE COMMUNITY:

- Work as frontend Developer of Square One Community, a Next.js and Node.js-based discount platform enabling brands to list deals and users to redeem exclusive offers.
- Managed API integration and real-time data fetching with TypeScript and JavaScript, ensuring efficient communication between frontend and backend services.
- Implemented state management with Zustand, optimizing performance for dynamic deal displays and user interactions across the platform.
